Costa

Costa Toscana

The beauty of Italy has reached our seas, Costa Toscana, the new flagship of Costa Crociere fleet, an expression of innovation and beauty, has arrived. **Modern and sustainable, our new ship offers an unforgettable voyage respecting the seas and oceans.** Like her twin Costa Smeralda, Costa Toscana is powered by liquefied natural gas. A tribute that Costa dedicates to art and design, from the cabins

Heineken Bar

Le Anfore Restaurant

to exclusive experiences for the first time on a cruise ship. Like the **Kartell Café**, where you can enjoy a cocktail and at the same time **take advantage of the guest discount** to buy a Kartell® design object.

With the world's first floating **Heineken Star Club & Bistro**, where **gastronomic offerings meet the best of Heineken entertainment**. But **Costa Toscana** is above all a celebration of the region that was the cradle of the **Renaissance**, where you can enjoy moments of absolute relaxation, with a sea view from the solarium on deck 19, and taste Italian excellence in the many restaurants on board, such as Ristorante Le Anfore. **Get ready for a unique experience on a ship that is an**

Costa Smeralda

Costa Smeralda is a journey into the beauty of **Italian style**. She encapsulates everything that makes a holiday memorable: the views, the beauty, the entertainment and a world of endless flavours that tantalise the palate. On board you can admire the horizon from the **Piazza di Spagna**, a grand staircase with a breathtaking view, have fun at the **Aqua Park** with evolutions and fast descents, and recharge your batteries with lunch at the buffet restaurant La Sagra dei Sapori, special for its themed gastronomic islands.

In just one ship you can be won over by the flavours of our land, be amazed by **a unique style and an engaging atmosphere**. And so much more: **Costa Smeralda is first and foremost care for the environment**. As the soon to arrive Costa Toscana becomes an emblem of responsible innovation and sustainable travel with LNG technology.

Responsible explorers.

Costa Toscana, like her twin Costa Smeralda, is a real travelling “smart city”. In addition to the great novelty of being **powered by liquefied natural gas**, the ship features a number of cutting-edge technological innovations designed to further **reduce environmental impact**.

The entire **daily requirement of water** is met by transforming water **from the sea through the use of desalinators**.

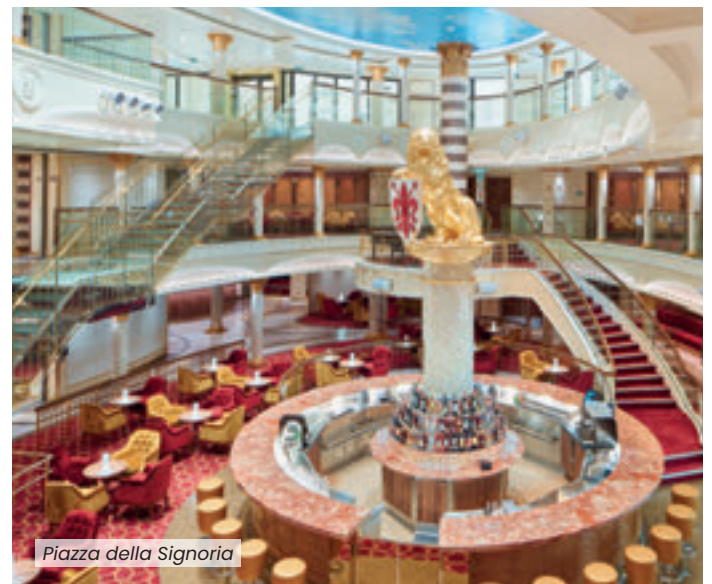

Energy consumption is minimised thanks to an **intelligent energy efficiency system**. In addition, **100 per cent separate collection** and recycling of materials such as plastic, paper, glass and aluminium will be carried out on board, which will be part of an integrated approach, aimed at the realisation of circular economy projects.

Costa Firenze

Renewal and cultural renaissance. This is the Renaissance. If we transport this concept to a cruise, imagine what a journey awaits you. Costa Firenze celebrates this period of cultural momentum in a contemporary way, being a perfect expression of it. A **new cradle of the Renaissance**, where every passenger is at the centre of the journey and every experience is designed around their emotions.

The history of a city becomes a celebration of life and beauty, an invitation to enjoy every single moment. On board the Costa Firenze, you are the protagonist of this new experience. Get ready to rediscover the world with completely new eyes.

Costa Venezia

Designed to offer you an authentic Venetian experience, Costa Venezia offers a variety of restaurants with open-air spaces, elegant lounges and shopping areas that evoke the charm of one of the world's most beautiful cities.

You can sip a coffee at the bar in **Piazza San Marco**, fill up on art at the **Art Gallery** admiring the works depicting Venice and its Casanova legend. The diverse range of flavours will leave you speechless: you can have an

Lido Veneziano

Gondola Lounge

all-Japanese experience at **Sushino at Costa**, enjoy the best meat at **Fiorentina Steak House** or become a chef for an evening at **Lu Hot Pot**.

And for an even more special experience, the Casanova restaurant will amaze you with gourmet menus designed by 3 internationally renowned chefs, **Bruno Barbieri**, **Hélène Darroze**, **Ángel León**.

More than an excursion.

It is said that you experience a journey three times: when you dream about it, when you live it and when you remember it. To offer you authentic experiences, we have created a new way of discovery. Combining sea and land, we touch the essence of each place, discovering it from a local's point of view. Special itineraries, with stops that may last several days, to visit, observe and discover not as tourists, but as real travellers.

No longer just excursions: you will **experience exclusive, immersive explorations to discover hidden corners of the world and experience local cultures first-hand.**

With Costa, every destination dreamt of is a destination reached, and every place explored becomes an indelible memory. Choose your experience. Prepare to load up on beauty.

A journey into the flavours of places.

The journey begins with **TASTE**.

- Croquetas de jamón in **Barcellona**
- Pasteis de nata in **Lisbona**
- Tapas de Chorizo in **Cadice**

One of the most effective ways to get to know the essence of a place **is to discover its flavours, and with us, food becomes one of the narrative voices of the journey.**

Thanks to our incredible on-board chefs, **the new menus will expertly encapsulate the beauty of the places we will encounter along our itinerary, masterfully revealing the flavours of the destinations to come.**

Each dish, created with top-quality, seasonal ingredients, combines the authenticity of local traditions with the creativity of haute cuisine. To make it even more special, we have found the best guides the palate can imagine: three undisputed experts in the culinary art united in a new restaurant created to offer you a new taste experience.

Together with our chefs, we will experience a journey within a journey, reconnecting with the culture and traditions of each place.

Pure fun.

A cruise is synonymous with discovery and relaxation, but also with pure fun.

You can be sure that on board our ships there will never be a shortage of entertainment and the chance to experience moments of sharing and laughter that will remain in your heart once you return.

Memorable performances by actors, acrobats and dancers will leave you speechless. An example?

The **Acrodreamers**, who will inspire you with their flying performances. There will be no shortage of dance performances, from street dancers such as **Quantum XXL** to the **Evolution Dancers'** performances with strobe light effects and digital choreography.

Since it is crucial for us to create **a connection between you and the places we explore together**, we will also introduce you to the following destinations through our shows, with concerts of local music and performances by artists and actors promoting the local culture.

www.costacruises.eu/entertainment

Small guests big smiles.

Keeping the little ones from 3 to 11 years old entertained may seem like a daunting task, but our shows and games with our entertainers are the perfect way to give your children an unforgettable holiday.

Our mascots **Squok**, **Peppa Pig**, **PJ Mask** will provide all children with days of pure fun amidst smiles and photos. The activities of the animators will involve the youngest children with the **Joy of Moving** programme, an educational method able to foster the motor, cognitive, emotional and relational development of children under the motto of I play, I learn, I have fun! Our guests from 12 to 17 years old will experience moments of fun and sharing through engaging games such as the fun **Challenge Zorb**, a two-on-two challenge in inflatable balls.

Your children will have the time of their lives, while you as the parents can enjoy true moments of carefree relaxation.
